- Differentiated Instruction
- Communication
- Assessment and Feedback
- Empathy
- Patience
- Collaboration
- Creativity
- Lesson Planning
- Technology Integration
- AI
- Cultural Competence

Philosophy

As a multiple subject credentialed elementary educator, I'm dedicated to creating an inclusive classroom in San Diego County where every student's learning style is supported and their potential is nurtured. I focus on child development, fostering collaboration and academic growth through tailored instruction. I'm eager to join a school that values student voice and strong relationships among staff, students, and families, guiding young learners with a friendly, encouraging approach to help them thrive.

Work Experience

DMUSD Substitute Teacher — **Del Mar, CA**
K-6/ED Substitute Teacher — Oct 2025 - Present

- Carried out the provided lesson plan while integrating various educational technologies to maintain instructional continuity and student engagement
- Managed a wide range of student behaviors through flexible classroom management strategies to foster a positive and inclusive environment to address individual needs
- Gained insight into district specific curricula and best practices by collaborating with permanent staff and adjusting instruction to support differentiated learning
- Delivered individualized lesson modifications for special education and EL's by incorporating visual aids and scaffolds to support their needs
- Structured special education and EL's day by providing consistent support and celebrating incremental achievements towards positive reinforcement learning
- Curated an inclusive and supportive environment for special education and EL students through differentiated strategies which resulted in improved engagement and skill development.

Stone Ranch Elementary School — **Poway, CA**
Teacher Candidate 5th grade — Jan 2025 - May 2025

Discovery Elementary School — **San Marcos, CA**
Teacher Candidate 2nd grade — Aug 2024 - Dec 2024

- **Implemented high-ceiling, low-floor teaching approaches to engage all learners**

- Utilized manipulatives and images for diverse Math instruction methods
- Applied the 5E model for inquiry-based Science lessons
- Integrated art to enhance reading comprehension strategies

- **Practiced varied phonics and reading comprehension methods**
  - Facilitated differentiated phonics groups
  - Conducted running records, miscue analysis, and summative diagnostics for literacy assessment
- **Planned integrated lessons using NGSS and Social Studies Framework**
  - Aligned Science and Social Studies content for cohesive curriculum delivery
  - Incorporated Benchmark and iReady curricula in lesson planning and implementation
- **Designed differentiated lessons aligned with standards and curriculum**
  - Delivered instruction in small and whole-group settings for varied learner needs
  - Created meaningful, engaging activities meeting requirements of students with IEPs and ELLs
- **Employed diverse classroom management strategies**
  - Fostered a safe, equitable environment through structured supports and scaffolds
  - Ensured access for all learners, including clusters of students with IEPs
- **Analyzed assessment and progress monitoring data to plan instruction**
  - Tailored lessons for maximum student growth based on performance insights
  - Planned and taught small-group Math and ELA sessions informed by data
- **Generated equitable lessons for emergent bilinguals with mentor teacher**
  - Attended to students' prior knowledge, assets, and individual needs
  - Collaborated weekly with grade-level team for planning
- **Collaborated with cooperating teacher on detailed, engaging lesson plans**
  - Aligned plans with Common Core standards for challenging content
  - Observed parent-teacher conferences, staff meetings, and IEP meetings to inform strategies
